Sub: Regarding permission for "ANSYS & MASTERCAM" workshop

Respected Sir,

With reference to above mentioned subject, Our College is going to arrange the Workshop for final year students on the topic "ANSYS & MASTERCAM" from 03th Oct 2016 to 09th Oct 2016. It will be delivered by **Mr. Wavare A.S.** who is the head of **Precise CAD Solutions and Services.**

The purpose of this workshop is to get interaction with the automation carried out in manufacturing industries. It also covers the content as a part of curriculum mentioned below,

Objectives:-

1. To introduce principle of Finite Element Method using ANSYS
2. To understand how simulate and model different types of structures
3. To learn how to perform various meshing techniques, boundary conditions and loading
4. To setup solve, and diagnose Structural and Thermal Analyses in the ANSYS
5. NC part program generation
6. To Design and drafting 2D and 3D models by using MASTERCAM
7. To learn Tool path generation and Simulation for Turning and Milling

Kindly permit us to conduct the workshop.

Yours Faithfully,

Tilekar

How do I start learning Ansys?

How to Learn Ansys: Step-by-Step

1. Learn mechanical engineering. While learning mechanical engineering, you should think of it as a way to make lives better. ...
2. Learn physics. ...
3. Take short courses. ...
4. Attend training sessions for Ansys. ...
5. Familiarize yourself with important terms. ...
6. Download the Ansys software.

What is mechanical Ansys?

Ansys Mechanical is a dynamic, integrated platform that uses finite element analysis (FEA) for structural analysis. Mechanical is a dynamic environment that has a complete range of analysis tools from preparing geometry for analysis to connecting additional physics for even greater fidelity

Guest Lecture Report

Name and organization of Guest speaker- Prof. Sachin More (KES RIT, Islampur)

Date of Guest Lecture-26/10/2016

Staff Coordinator-Prof. S. P. Kasar

Objectives- This lecture will be helpful to students in understanding:

1. Basic concepts of active and passive earth pressure.
2. Concept and application of Rankine's theory.
3. Introduction to Geo-environmental engineering and stability of slopes.

Outcome of Guest lecture Students understood the basic concepts of earth pressure, Rankine theory, Coulomb's wedge theory.

Information of Guest lecture in brief- This was conducted especially for students of Second Year Civil engineering department in order to get knowledge about active and passive earth pressure, Rankine's theory, Coulomb's wedge theory, Stability of slopes.

Value addition through Guest lecture- Besides the objectives, following additional technical information understood by students.

- Career opportunities in field of Geotechnical engineering.
- Design of land fill sites.

2016	Cyber Security and Ethical Hacking	30	8 th sept. 2016 to 9 th sept. 2016

Guest lecture on “**Cyber Security and Ethical Hacking**” conducted on 8th sept. 2016 to 9th sept. 2016 at computer engineering department, SEC, Baramati .

Information of Trainer in brief –

Name of Trainer - Mr. Haibath Jadhav

Designation – CEO. Soft Infology, Pune

Softinfology Solutions And Consultancy Private Limited is a Private incorporated on 01 July 2013. It is classified as Non-govtcompany and is registered at Registrar of Companies, Pune. Its authorized share capital is Rs. 100,000 and its paid up capital is Rs. 100,000. It is involved in Other computer related activities [for example maintenance of websites of other firms/ creation of multimedia presentations for other firms etc.

Ethical hacking is a field within cyber security where security experts assume the role of an unauthorized user and attempt to gain access to a private network or computer. These exercises aim to help targets identify any security vulnerabilities that could be exploited in a real cyber attack. Hacking can be defined as to gain unauthorized access to any computer system and performing malicious activities. After getting access to a system, the hacker may delete system files and also steal sensitive information. Hacking done without permission is illegal whereas hacking done with permission comes under Ethical Hacking and is done to find out vulnerabilities in one’s computer system. Ethical hackers are often hired by renowned software companies to hack into their system/servers to find vulnerabilities and weak endpoints so that they can be fixed. Every software company especially the renowned ones follow this practice to take precautionary measures against legitimate hackers who have malicious intent.

It is important to note that hacking of any system without permission or related activity is considered as serious cybercrimes and can lead a person to extreme consequences. There are provisions of years of imprisonment to people found guilty of unethical hacking or any other cyber-crime.

Ethical Hacking: Career Prospects

Growing cases of computer hacking have forced renowned companies, financial institutions, and government organizations to recruit ethical hackers. Ethical hackers help these companies in finding out vulnerabilities and possible security leaks of their

computer systems and also to protect them from any potential threat. So Ethical Hacking as a career has promising prospects in the near future.

According to a survey conducted by the International Data Corp, there is a demand for over 60,000 information security personnel worldwide. In India alone, the number is expected to grow by over 77,000 and 188,000 worldwide in the next few years. Talented Ethical Hackers can look for making their career in some of the big names in the IT sector including Wipro, Dell, Reliance, Google, Accenture, IBM, and Infosys.

A Graduate degree in computer science or similar technology with certification in Ethical Hacking or any of the related stream ensure a good chance of getting a job in reputed companies.

Ethical Hacker Salary

In the present scenario, a fresher Ethical Hacker can expect to get Rs 4.8 lakh per annum. However, candidates with higher academic qualifications and work experience draw up to Rs 30 lakh per year.

Latex Trainer has gotten pretty annoying in recent years, with some of Instagram’s biggest stars teasing them as a way to reduce their waists and improve their numbers. Years ago, waist masters became even more popular due to their increased comfort.

- Complete coverage of LaTeX fundamentals, including how to input text, symbols, and mathematics; how to produce lists and tables; how to include graphics and color; and how to organize and customize documents
- Discussion of more advanced concepts such as bibliographical databases and BIBTeX, math extensions with AMS-LaTeX, drawing, slides, and letters
- Helpful appendices on installation, error messages, creating packages, using LaTeX with HTML and XML, and fonts
- An extensive alphabetized listing of commands and their uses

Subject: Request for conducting workshop of Latex.

Respected Sir,

As per our telephonic conversations regarding conducting workshop on the subject Latex on 16th and 17th of March 2016, i.e. Wednesday and Thursday, at Computer Engineering department, SEC, Baramati for the SE students of Computer, now I'm requesting you through this invitation letter to consider the request.

I hope the requested will be accepted and hope for the positive reply.

Thanking You.

Guest lecture on “PLC & SCADA ” conducted on 13th to 14th & 18 to 19th OCT 2017 at Electrical engineering department, Someshwar Engineering College someshwarnagar , Baramati

Information of Trainer in brief –

Name of Trainer - Mr. Kundalik Koli

Designation – Director of WestMS Technology Pune

The primary difference between a PLC (or Programmable Logic Controller) and SCADA (Supervisory Control and Data Acquisition) is the fact that **a PLC is hardware and SCADA is (generally) software**, though some would argue that SCADA is a plant's overall control system using hardware and software elements.

PLC are divided into three types based on output namely **Relay output, Transistor output, and Triac Output PLC**. The relay output type is best suited for both AC and DC output devices.

What is a PLC? PLC stands for “Programmable Logic Controller”. A PLC is a computer specially designed to operate reliably under harsh industrial environments – such as extreme temperatures, wet, dry, and/or dusty conditions. PLCs are used to

automate industrial processes such as a manufacturing plant's assembly line, an ore processing plant, or a wastewater treatment plant.

PLCs share many features of the personal computer you have at home. They both have a power supply, a CPU (Central Processing Unit), inputs and outputs (I/O), memory, and operating software (although it's a different operating software).

Arduino is **an open-source electronics platform based on easy-to-use hardware and software**. Arduino boards are able to read inputs - light on a sensor, a finger on a button, or a Twitter message - and turn it into an output - activating a motor, turning on an LED, publishing something online.

The Arduino Uno is programmed using the Arduino Software (IDE), our Integrated Development Environment common to all our boards and running both online and offline. For more information on how to get started with the Arduino Software visit the Getting Started page.

The Arduino UNO board has **six analog input pins A0 through A5**. These pins can read the signal from an analog sensor like the humidity sensor or temperature sensor and convert it into a digital value that can be read by the microprocessor. Each Arduino board has its own microcontroller

A software language is an artificial language used in the development of software systems. The term is more general than programming language and also includes modelling languages, query languages, transformation languages, software interfaces, database schemata, domain-specific languages, markup languages, etc

Sub: Regarding permission for CAD/CAM and Automation workshop

Respected Sir,

With reference to above mentioned subject, Our College is going to arrange the Workshop for final year students on the topic **CAD/CAM and Automation** from 10th Oct 2017 to 12th Oct 2017. It will be delivered by Prof. Smriti Sahu & Prof. Snehal Sakhare (Indira College of Engineering and Management Pune).

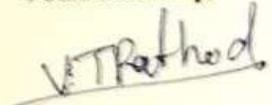

The purpose of this workshop is to get interaction with the automation carried out in manufacturing industries. It also covers the content as a part of curriculum mentioned below,

Objectives:-

1. To introduce principle of Finite Element Method using ANSYS
2. To understand how simulate and model different types of structures
3. To learn how to perform various meshing techniques, boundary conditions and loading
4. To setup solve, and diagnose Structural and Thermal Analyses in the ANSYS
5. NC part program generation
6. To Design and drafting 2D and 3D models by using MASTERCAM
7. To learn Tool path generation and Simulation for Turning and Milling

Kindly permit us to conduct the workshop.

Yours Faithfully,

Prof. Rathod V.T.

Sub: Invitation for conducting workshop on CAD/CAM and Automation.

Dear Sir/Madam,

As you may be aware, Shri Someshwar Shikshan Prasarak Mandal's, Someshwar Engineering College, Someshwarnagar is one of the most reputed Engineering Institutions in Savitribai Phule Pune University and known for its excellent record in academics and co-curricular activities. The College offers Bachelor degree course in Mechanical, Civil, Electrical, and Computer.

With reference to above subject and our discussions we are inviting you for conducting the three days' workshop from 10th Oct 2017 to 12th Oct 2017 for our students so as to get interacted with the software and to get aware of recent updates and practical's in the field of CAD/CAM and Automation. We kindly request you to accept our invitation.

Please convey the date as per your convenience.

Thanking You,

Guest Lecture Report

Name and organization of Guest speaker- Ms. Pawar Priyanka S. (Billing & Estimation engineer, Vistacore Infra. Pvt. Ltd. Pune)

Date of Guest Lecture-28/04/2017

Staff Coordinator-Prof. S. P. Kasar

Objectives- This lecture will be helpful to students in understanding:

1. Basic concepts related to e-Tendering system.
2. Process of registration for e-Tendering.
3. Procedure of publishing, receiving and submitting of e-Tendering.

Outcome of Guest lecture Students understood the basic concepts of e-Tendering, required documents for filling tender, process of online transaction for EMD and SD.

Information of Guest lecture in brief- This was conducted especially for students of Civil engineering department in order to get knowledge about types of tenders, offline tendering e-tendering procedure, payments modes. Advantages and disadvantages of e-Tendering.

Value addition through Guest lecture- Besides the objectives, following additional technical information understood by students.

- Demonstration of filing tender.
- Career opportunities in e-tendering

Guest lecture on “Technical writing on Latex ” conducted on 19th JAN 2017 to 20 JAN 2017 at computer engineering department, Someshwar Engineering College of Someshwarnagar , Baramati for student of Computer .

Information of Trainer in brief –

Name of Trainer - Mr. HaibathJadhav

Designation – CEO. Soft Infology, Pune

Softinfology Solutions And Consultancy Private Limited is a Private incorporated on 01 July 2013. It is classified as Non-govt company and is registered at Registrar of Companies, Pune. Its authorized share capital is Rs. 100,000 and its paid up capital is Rs. 100,000. It is involved in Other computer related activities [for example maintenance of websites of other firms/ creation of multimedia presentations for other firms etc.

Technical writing on Latex Trainer has gotten pretty annoying in recent years, with some of Instagram’s biggest stars teasing them as a way to reduce their waists and improve their numbers. Years ago, waist masters became even more popular due to their increased comfort.

- Complete coverage of LaTeX fundamentals, including how to input text, symbols, and mathematics; how to produce lists and tables; how to include graphics and color; and how to organize and customize documents
- Discussion of more advanced concepts such as bibliographical databases and BIBTeX, math extensions with AMS-LaTeX, drawing, slides, and letters
- Helpful appendices on installation, error messages, creating packages, using LaTeX with HTML and XML, and fonts
- An extensive alphabetized listing of commands and their uses

New to this edition:

- More emphasis on LaTeX as a markup language that separates content and form--consistent with the essence of XML
- Detailed discussions of contributed packages alongside relevant standard topics

About The Workshop

GIS can be taken up as the future analytical module to solve many technical and social problems. The GIS community has worked hard to create and make available the software's free as an open source, expertise in GIS for students and faculty is a call of the hour. This training program will help understanding the depth and application of the tools.

Course Contents

The short term course would include lectures hands on lab sessions on the GIS & GPS: Basic concepts of GIS & GPS, How to prepare and handle GIS data and execute a project in it. In this hands on experience on open source GIS software and implementing the various case studies, execution of a mini project by the participants themselves.

Objectives

The short term course is intended to introduce the following themes:

1. To spread the importance of GIS & GPS in Civil Engineering.
2. To promote the use of open source GIS Software.
3. Basic concepts and hands on training experience on few applications.

So that at the end of course, participants reach such a level that they can further explore themselves according to their needs.

Expected outcome

1. Compute an image digitally with digital image processing techniques.
2. Explain the concepts and fundamentals of GIS & GPS.
3. Compute knowledge of remote sensing and GIS in different Civil engineering applications.

Subject- Invitation for one day workshop on “Environmental Audit & Sustainable Development”

Date: 21st August 2018 (Tuesday)

Venue: S.S.P.M's Someshwar Engineering College, Someshwarnagar

Dear Sir/Madam,

Growing industrial pollution, population, climate change and sustainable development are the key issues of today's day and age. Henceforth, it is our collective responsibility to control and monitor the pollution from different sources so as to retain better and healthy environment for future generations. Environmental audit and sustainable development is the one way by which we can monitor the same and provide solution to upcoming dangers to society and the environment as a whole.

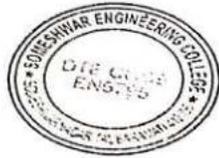

It is therefore necessary to provide exposure to the students, teachers as well as industry persons of the concerned subjects as early as possible so as to increase awareness regarding the same. Therefore, a workshop on “Environmental audit and sustainable development”, is planned by our institute on 21st August 2018.

The workshop also aims at a summing up in the during the concluding session, in order to bring out innovative directions for future work. The sessions shall be conducted by Dr. N.S. Raman, Head, Environmental Audit Cell (EAC), NEERI, Nagpur.

The profile of the speaker and schedule of the program is attached herewith. For registration contact Prof. Mayur Chatuphale, Cell: 9503680664, g-mail: mayurchatuphale@gmail.com

Brief profile of speaker

Dr. N.S. Raman is Senior Principal Scientist and Deputy Director at National Environmental Engineering Research Institute (NEERI), Nagpur, India. He holds a B.E. degree from The University of Mysore (Rank Holder) and an M. Tech. degree in environmental engineering from The Indian Institute of Technology (I.I.T), Powai, Mumbai. He received a Doctorate (Ph. D.) in Environmental Engineering (Specialization Environmental Audit) from The Indian Institute of Technology (I.I.T), Roorkee. Currently, his Research activities focus on the fields of environmental auditing (EA), Natural Resources Accounting, Environmental Impact Assessment (EIA), ISO 14001, Environmental Economics, Municipal Solid Waste Management and Eco-Auditing.

Dr. Raman is a certified lead auditor by Marsden International (based in the United Kingdom) after successful completion of advanced ISO 14000 lead-auditor training accredited by the Environmental Auditors Registration Association and also a Lead Auditor of International Accreditation Service (IAS), Brea, California. He has developed Key Performance Indicators in urban Governance for environmental audit framework.

He has published over 90 research papers in national and international journals and is the recipient of several awards (including "best paper" awards) at international seminars and workshops. He is recognized as a PhD supervisor for environmental engineering in the Faculty of Engineering and Technology, Rashtrasant Tukadoji Maharaj Nagpur University, Nagpur; North Maharashtra University, Jalgaon; Gondwana University, Gadchiroli and R.K. University, Rajkot. In 2006, he authored the Handbook on Indian Environmental Standards in collaboration with Dr. Sukumar Devotta, director of NEERI. Further, he has authored two RESUME 2 books on Environmental Impact Assessment (EIA) in 2014 and in 2016.

Dr. Raman is listed in the Asia edition of International Biographical Foundation and the World Who's Who of Men and Women of Distinction in recognition of his distinguished leadership in environmental engineering. He received The Bharatha Rathna Sir M. Vishveswaraiah National Parisara Rathna Award in recognition of his work in the field of environmental engineering. Recently "Best Scientist of the year 2017" award has been conferred upon him by ASDF-SIAA on April 08, 2017.

About The Workshop

Growing industrial pollution, population, climate change and sustainable development are the key issues of today's day and age. Henceforth, it is our collective responsibility to control and monitor the pollution from different sources so as to retain better and healthy environment for future generations. Environmental audit and sustainable development is the one way by which we can monitor the same and provide solution to upcoming dangers to society and the environment as a whole.

It is therefore necessary to provide exposure to the students, teachers as well as industry persons of the concerned subjects as early as possible so as to increase awareness regarding the same.

Course Contents:

One day workshop on sustainable development and environmental audit will focus on the the concept and importance on the same and provide social as well as legal solution to these issues. Aim of the workshop is also to discuss these issues with different sections of society viz. Students, industry personnel, researchers and academicians and come up with concrete solutions.

Objectives:

The short term course is intended to introduce the following themes:

1. To spread the importance of sustainable development and environmental audit among students, industry personnel as well as faculties.
2. To increase the awareness of the same by discussing legal aspects.
3. To find the solution to different environmental issues using the concept of sustainable development and environmental audit.

Expected outcomes:

1. To understand the concept of sustainable development and environmental audit.
2. To understand the legal implications of environmental audit. (viz. IS14001)
3. To understand the difficulties and practical issues of sustainable development and environmental audit.

Dear Sir,

Someshwar Engineering College, established in 2012, is one of the self financed Engineering colleges approved by AICTE New Delhi, Government of Maharashtra and DTE Mumbai. The institute is affiliated to Savitribai Phule Pune University (SPPU). The institute offers Engineering Courses in Mechanical Engineering, Civil Engineering, Computer Engineering, and Electrical Engineering leading to BE degree as per SPPU University Curriculum.

As a part of student interaction, we would like to invite you to our institute to address students on "Environmental Audit & sustainable development" on a convenient date. Our institute shall take care of travel and hospitality. Hope you would enjoy the visit.

Typically, we propose 21st August 2018 for this visit.

It is involved in Other computer related activities [for example maintenance of websites of other firms/ creation of multimedia presentations for other firms etc.

This Data Science with Python program **provides learners with a complete understanding of data analytics tools & techniques**. Getting started with Python can help you gain knowledge on data analysis, visualization, Num Py, SciPy, web scraping, and natural language processing

How to Learn Python for Data Science

1. Step 1: Learn Python fundamentals. Everyone starts somewhere. ...
2. Step 2: Practice with hands-on learning. ...
3. Step 3: Learn Python data science libraries. ...
4. Step 4: Build a data science portfolio as you learn Python. ...
5. Step 5: Apply advanced data science techniques.

Data Science with Python

This data science with Python tutorial will help you learn the basics of Python along with different steps of data science such as data pre-processing, data visualization, statistics, making machine learning models, and much more with the help of detailed and well-explained examples. This tutorial will help both beginners as well as some trained professionals in mastering data science with Python

Introduction to Data Science

Data Science is kinda blended with various tools, algorithms, and machine learning principles. Most simply, it involves obtaining meaningful information or insights from structured or unstructured data through a process of analyzing, programming and business skills. It is a field containing many elements like mathematics, statistics, computer science, etc. Those who are good at these respective fields with enough knowledge of the domain in which you are willing to work can call themselves as Data Scientist. It's not an easy thing to do but not impossible too. You need to start from data, it's visualization, programming, formulation, development, and deployment of your model. In the future, there will be great hype for data scientist jobs. Taking in that mind, be ready to prepare yourself to fit in this world.

Date: 10th and 11th October 2019

1. Expert Detail Name: Mr. Padmakar Sawane

Designation: Director

Organization: Bit Electronic System, Baramati

Total Experience: 11 Years

2. Brief details of the event: The Workshop was organized by the Someshwar Engineering College's Department of electrical engineering on 10th and 11th October 2019. Mr. Padmakar Sawane presided over as the guest speaker and topic of her discussion was "PIC Microcontroller" during which various topics of pic18f458 were discussed.

3. Response of the audience/ learning for the students: It was nice learning experience for students and they thoroughly enjoyed the session. Speaker involved the students in various interfacing programs.

4. Faculty Coordinator Name: Prof. Bhagat S. S.

5. Number of participants (student: 14 & Faculty2)

6. Learning objective: 1) Learn how to design automation systems using Microcontroller (PIC18F458).2) Learn how to develop embedded C program for Microcontroller (PIC18F458).

3) Program, Troubleshoot and maintain Microcontroller (PIC18F458) based system.

4) Create new Security system application.5) Troubleshooting the application.

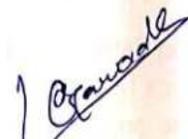

7. Learning Outcomes:

- 1) Explain architecture of pic18f458 microcontroller, its instruction and addressing modes
- 2) Develop and debug program in assembly and c language for specific applications
- 3) Use of an IDE for simulating the functionalities of PIC microcontroller and its use for software and hardware development.
- 4) Interface a microcontroller to various devices.
- 5) Effectively utilize advance features of microcontroller peripherals.

8. Expert Narration: The focus of the lecture was on improving the embedded c programming skills of the students in order to prepare them for various interfacing. How to Create of hex file Design of Microcontroller driving circuitry. Indicator Interfacing. AC Device Interfacing. Infrared sensor Interfacing. Serial. Communication (RS232 Protocol). 16*2 LCD Interfacing.

Information of Trainer in brief –

Name of Trainer - Mr. Sudhir R.Shah

Designation –Faculty Trainer PCRA

PCRA is a national government agency engaged in **promoting fuel conservation and energy efficiency in various sectors of the economy**. It also helps the government in formulating policies and strategies for petroleum conservation, aimed at reducing excessive dependence of the country on oil imports

What are the guidelines of PCRA?

We at PCRA conduct training program for groups of drivers in major transport fleets.

...

- Stop the leakages immediately. ...
- Avoid spillage. ...
- Correct lubricant is important. ...
- Check Tyre pressure regularly. ...
- Dirt-your worst enemy.

What is the main goal of PCRA?

PCRA aims at **making oil conservation a national movement**. As part of its mandate, PCRA is entrusted with the task of creating awareness amongst the masses about the importance, methods and benefits of conserving petroleum products & emission reduction

7. Learning Outcomes:

Kundalini

Within the Indian mystic tradition, kundalini awakening has long been a much sought-after goal that was thought rare and hard to attain. Sahaja Yoga is distinctive in offering a quick and easy path to such an awakening.

Meditation

Meditation is one of the foundational practices within Sahaja Yoga. The technique taught emphasises the state of "thoughtless-awareness" that is said to be achieved.

The Subtle System – Chakras and Nadis

According to Sahaja Yoga, in addition to our physical body there is a **subtle body composed**

of nadis (channels) and chakras (energy centres). Sahaja Yoga equates the Sushumna **nadi with**

the parasympathetic nervous system, the Ida nadi with the left and the Pingala nadi with the right sides of the sympathetic nervous system.

Chakras are a symbolic representation of the branching network of vessels or nerves in the human body called plexus.

What is Python?

Python is a popular programming language. It was created by Guido van Rossum, and released in 1991.

It is used for:

- web development (server-side),
- software development,
- mathematics,
- system scripting.
- **What can Python do?**
- Python can be used on a server to create web applications.
- Python can be used alongside software to create workflows.
- Python can connect to database systems. It can also read and modify files.
- Python can be used to handle big data and perform complex mathematics.
- Python can be used for rapid prototyping, or for production-ready software development.

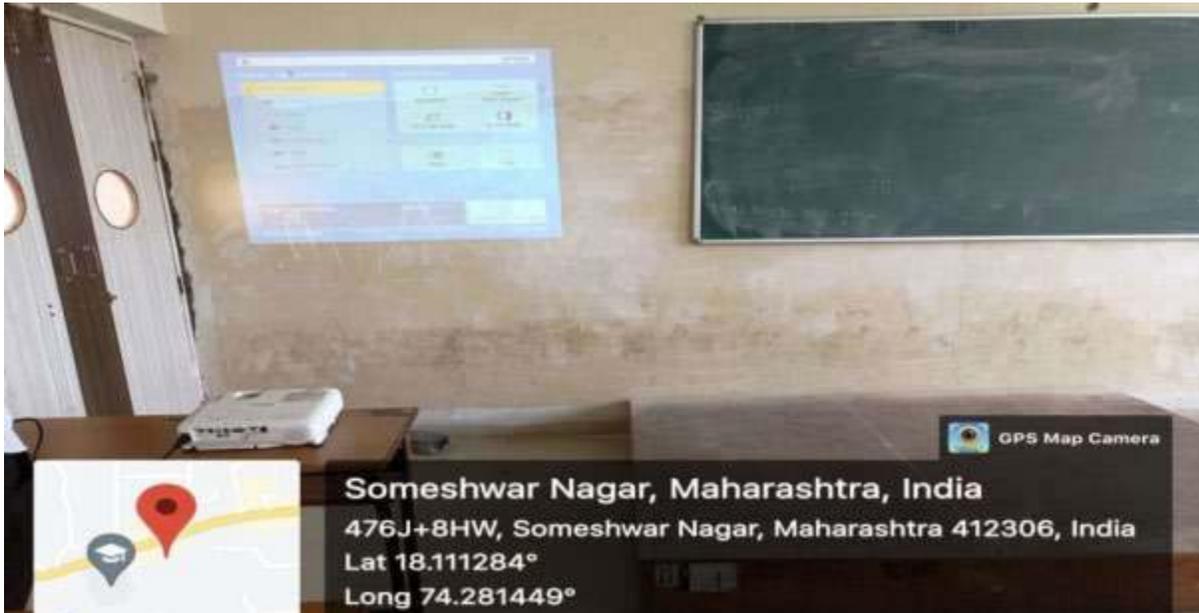

Why Python?

- Python works on different platforms (Windows, Mac, Linux, Raspberry Pi, etc).
- Python has a simple syntax similar to the English language.
- Python has syntax that allows developers to write programs with fewer lines than some other programming languages.
- Python runs on an interpreter system, meaning that code can be executed as soon as it is written. This means that prototyping can be very quick.
- Python can be treated in a procedural way, an object-oriented way or a functional way.

Guest lecture on “Petroleum conservation Research Association (institution Training Programme)” conducted on 05th FEB 2020 at Mechanical engineering department, Someshwar Engineering College of Someshwarnagr , Baramati for student of Mechanical & Electrical Engineering Department .

Information of Trainer in brief –

Name of Trainer - Mr. Sudhir R.Shah

Designation –Faculty Trainer PCRA

PCRA is a national government agency engaged in **promoting fuel conservation and energy efficiency in various sectors of the economy**. It also helps the government in formulating policies and strategies for petroleum conservation, aimed at reducing excessive dependence of the country on oil imports

What are the guidelines of PCRA?

We at PCRA conduct training program for groups of drivers in major transport fleets.

...

- Stop the leakages immediately. ...
- Avoid spillage. ...
- Correct lubricant is important. ...
- Check Tyre pressure regularly. ...
- Dirt-your worst enemy.

What is the main goal of PCRA?

PCRA aims at **making oil conservation a national movement**. As part of its mandate, PCRA is entrusted with the task of creating awareness amongst the masses about the importance, methods and benefits of conserving petroleum products & emission reduction

What are the achievements of PCRA?

Over the years, PCRA has **developed a number of films, TV spots and radio jingles in various languages for promoting oil conservation**. PCRA also publishes quarterly a journal and a newsletter

What are guidelines issued by PCRA to conserve fossil fuels? Conservation of Fossil Fuels

- In India, the Petroleum Conservation Research Association (PCRA) gives the following tips - Drive at constant speed. ...
- We should use renewable fuels like solar energy, wind energy. Save fuel and use it judiciously.
- Save fuel by walking for shorter distances, using bicycles etc

What is National Education Policy?

it discusses reducing curriculum content to enhance essential learning, critical thinking and more holistic experiential, discussion-based and analysis-based learning.

Who introduced new education policy?

In 1992 this policy was modified by our former prime minister of India P.V Narasimha Rao and now after 34 years the new education policy was introduced, however, it has been not implemented yet.

Why is National Education Policy important?

The introduction of the National Education Policy (NEP) 2020, after three decades has been one of the biggest highlights in the Indian education industry. It is a comprehensive policy that emphasises universities' multidisciplinary & multimode approaches, and education backed by technology

ABOUT SPPU

Shri. Someshwar Shikshan Prasarak Mandal established in 1972 by Late Shri. Mug (Appa) Sahebrao Kakade (Deshmukh), Founder President of Shri. Someshwar Sahakar Karkhana Limited, Someshwarnagar Baramati, Dt. Pune, Maharashtra, India, in order to impart quality education in rural areas.

ABOUT SPCOE&T

Sharadchandra Pawar College of Engineering and Technology (SPCOE&T) formerly known as Someshwar Engineering College, established in the year 2012 with an intention of catering technical education in the rural areas under the leadership of Hon. S. Sharadchandra Pawar (Ex. Defense Minister, Agriculture Minister, Govt. of India). The SPCOE&T is affiliated to the Savitribai Phule Pune University, Pune. It offers AICTE approved courses leading to the degree of Bachelor of Engineering (BE) in four engineering streams namely Civil Engineering, Computer Engineering, Electrical Engineering and Mechanical Engineering.

The Institute has signed MOU with Capgemini India Ltd. and FUEL for training the students to make them industry ready.

The College has highly qualified and experienced faculty on its roll. The laboratory, computer and library facilities in all departments are well developed. The College gives substantial emphasis on the teaching-learning process. The College also provides unlimited broadband internet facility to the students. Besides national journals, the international journals are made available to the students and the faculty. This Institute is working for imparting excellence driven engineering education that builds the future of Engineers and Entrepreneurs.
