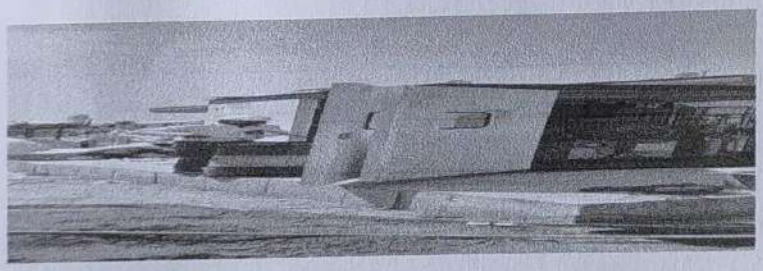
- voltage problem solve
- charge ups panel.
- compressor oil top up



41st day :-

- machine ruuning 110 bar pressore
- and tubing testing
- check oil leakage
- check gas leakage
- gas leakage found fitting damage.

42nd day :-

- purchase new fitting and install.

43rd day :-

- Gas tubing testing work done no leakage found.

44th day :-

- full traning and Explain working cycle of machine.
- Average cap :-800 sm3/m.
- outer dimension :- 3500x2200x2100mm
- curb weight :- 4500kg
- motor power :- 37 kw
- suction pressur :200-30 bar.

45th day :-

- machine running normallly but machine under observation

46th day :-

- check gas leakage and oil leakage
- check woter leakage
- chheck any abnormal sound
- check compressor perameters
- machine running normallly but machine under observation

47th day :-

- check gas leakage and oil leakage , oil leakage found than arrrest oil leakage.
- check woter level and top up
- chheck any abnormal sound
- check compressor perameters
- machine running normallly but machine under observation

48th day :-

- check gas leakage and oil leakage no leakage found
- check woter leakage no leakage found and check water level
- chheck any abnormal sound , found ok.
- Gas high temp issue , check TT connection tight ,problem solve.
- machine running normallly

49th day :-

- commpressor oil pressure problem, oil PRV setting done.
- check woter level
- chheck any abnormal sound
- check compressor perameters

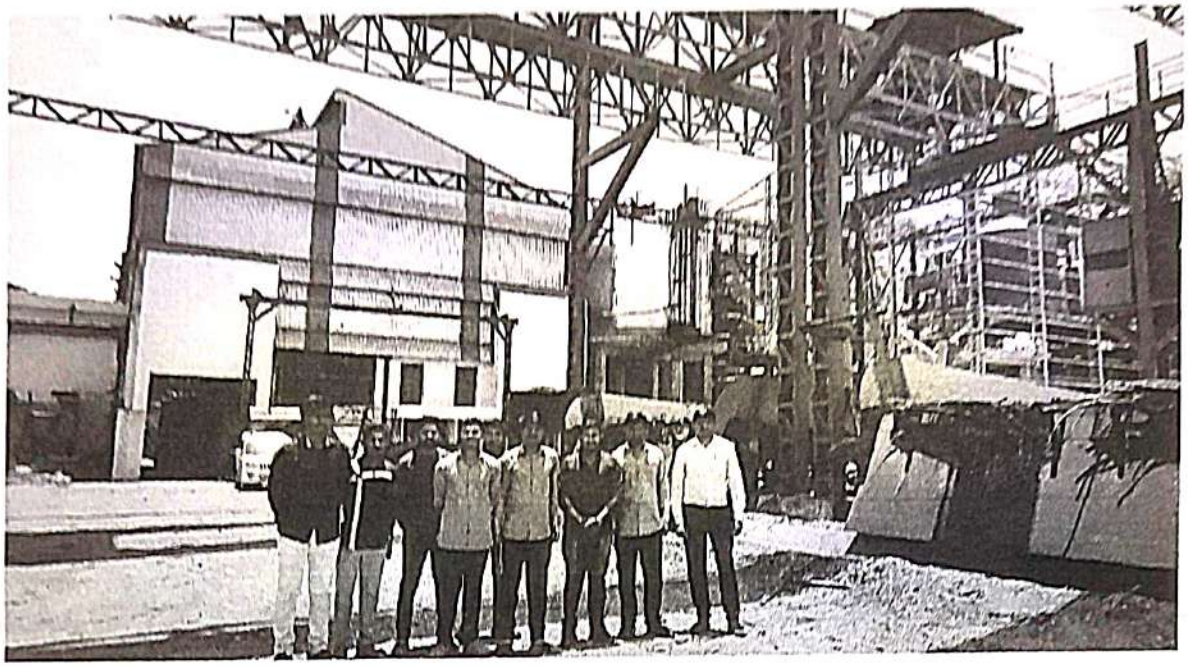
Industrial Visit Report



Name and Address of Industry: Shri. Someshwar Sahakari Sakhar Karkhana, Someshwarnagar

Date of Visit: 5th May 2022

Staff Co-ordinator: Prof. Ghadage Mayur M.

Objective of Visit: The visit was carried out under the subject of **Kinematics of Machinery** to understand

- Different Mechanisms used for machinery in sugar industry as well as awareness and understanding of automations/ machine assembly lines.

Outcome of Visit: During industrial visit students studied about the actual setup for hydro power generation. Also the working of boiler was seen by the students.
In addition to above students get practical knowledge about the turbine, its controlling, electricity generation and distribution.

Information of Visit in brief:

The department of Mechanical Engineering organized one day industrial visit to Shri. Someshwar Sahakari Sakhar Karkhana, Someshwarnagar, Tal. Baramati, Dist. Pune on 5th May 2022 for Second year students. Resource persons from industry explained in details about the equipment and processes of converting sugar from sugar cane. Overall plant layout of the sugar factory was also discussed with the students. In the visit students mainly studied steam power plant, sugar making process, boiler and its mountings, temperature measurement of boiler, etc.

Value addition through industrial visit:

Besides the objectives, following additional technical information understood by student at site:

- Students observed the various industrial processes such as ash handling, bagasse handling etc. taking place in sugar industry
- In detail knowledge of sugar manufacturing process.

Name and Address of Industry: Shri. Someshwar Sahakari Sakhar Karkhana, Someshwarnagar

Date of Visit: 6th May 2022

Staff Co-ordinator: Prof. Ghadage Mayur M.

Objective of Visit: The visit was carried out under the subject of **Measurement Laboratory** to understand

- Use of Boiler for process industry
- Temperature measurement of boiler and furnace
- Cost analysis

Outcome of Visit: During industrial visit students studied about the actual setup for hydro power generation. Also the working of boiler was seen by the students.

In addition to above students get practical knowledge about the turbine, its controlling, electricity generation and distribution.

Date of Visit: 6th May 2022

Staff Co-ordinator: Prof. Bhagat Shraddha

Objective of Visit: The visit was carried out under the subject of **Energy Engineering** to understand

- Use of Boiler for process industry
- Temperature measurement of boiler and furnace
- Take readings for Boiler performance calculation

Outcome of Visit: During industrial visit students studied about the actual setup for hydro power generation. Also the working of boiler was seen by the students.

In addition to above students get practical knowledge about the turbine, its controlling, electricity generation and distribution.

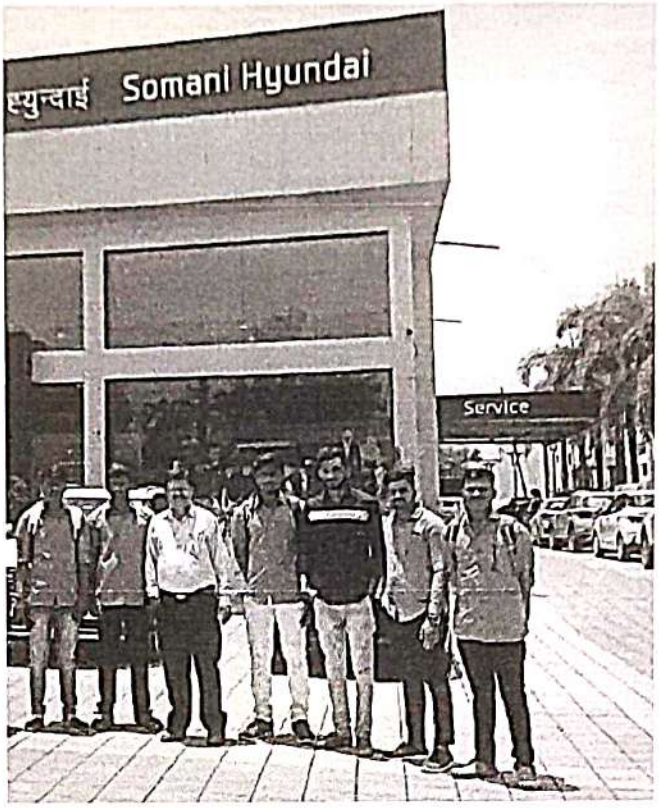
Industrial Visit Report



Name and Address of Industry: Somani Hyundai Showroom, Kasba, Nira-Baramati Road, Baramati

Date of Visit: 6th May 2022

Staff Co-ordinator: Prof. Kakade Shivani. R.

Objective of Visit: The Visit was carried out under subject of **Applied Thermodynamics** to understand

- Working of Automobile service station unit
- Maintenance of various body parts, maintenance of engine
- Design of the layout of Automotive workshop
- Wheel balancing and wheel alignment process

Outcome of Visit: Students understood the need of servicing of automobile vehicle, wheel balancing and wheel alignment process, cambers and casters, information about IC engine, Hybrid vehicle, etc.

Information of Visit in brief:

Industrial visit was arranged especially for the students of Second year Mechanical Engineering in order to get practical exposure and to understand the need of servicing of automobile vehicle also the need of balancing of vehicle and procedure of wheel balancing. The group of 5 to 6 students were made and each group the demonstration of wheel balancing was given. In addition to this the demonstration of wheel alignment was given.

In addition to wheel alignment and wheel balancing, the information of the maintenance of various body parts, maintenance of engine, concept of breakdown maintenance and preventive maintenance was explained.

Value addition through industrial visit:

Besides the objectives of visit, the following additional technical information was given to the students during the visit.

- Demonstration of wheel alignment and wheel balancing
- Information of preventive and breakdown maintenance
- Engine maintenance
